Your questions

Governance

How much time and effort would you like to invest in the management of your company instead of the management of your pension fund?

Maintain autonomy

Are you looking for a way to offer attractive pension benefits at a reasonable price without losing autonomy?

Key person risk

If your pension fund manager was suddenly no longer available tomorrow, how quickly and easily can they be replaced?

Communication

Is your communication on occupational pensions and the pension fund largely ignored?

Independent perspective

Does your pension fund manager challenge external consultants, do they have a solid network and do they act entirely in the interests of the insured persons?
