

Celebrating 20 years at the forefront of pharmacy

Rx Collaborative

2024 marks the 20-year anniversary of WTW's Rx Collaborative. Continuing to disrupt the marketplace and push for transparency and savings for employer plan sponsors. [See our journey.](#)

What is the Rx Collaborative?

The largest pharmacy coalition in the U.S.

- Unmatched in size and scale — a trusted partner to 428 employers and 5.3 million members with \$7 billion in annual drug spend.
- Industry expertise that delivers financial savings, transparency, innovative programs and comprehensive consulting services.

RxC pharmacy benefit management partners

WTW offers solutions for all employer sizes

- The Rx Collaborative supports employers with more than 1,000 employees and at least \$5 million in drug spend.
- Attune Rx, through a partnership with RxBenefits, supports employers with fewer than 1,000 employees.

Why this matters

Drug costs represent **20% to 25%** of total healthcare costs; specialty drug costs continue to accelerate and **often exceed 50%** of total pharmacy spend.

Emerging **high-cost drugs**, such as GLP-1s, require new cost control strategies. Highly utilized specialty medications with biosimilar alternatives require member education and navigation through plan design incentives.

Ongoing state and federal legislation requires employers to be nimble in support of multi-state populations.

Why WTW's RxC

Consultant-led coalition that provides industry expertise from the largest team of pharmacy experts in North America. Dedicated to providing cost containment strategies, PBM governance and guidance on current legislative challenges.

Unique partnership offering and the only pharmacy coalition to partner with Capital Rx that provides an alternative pricing model to the traditional model. Our partnership with Capital Rx allows specialty carve-out to more effectively manage pharmacy benefits.

Purchasing power through our combined size that provides us with the ability to negotiate and achieve efficiencies, cost savings and advance innovation in the market.
